

# Reception NM newsletter

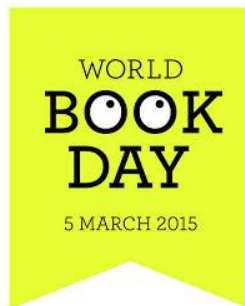

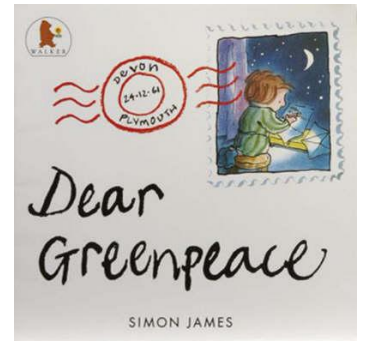

## Star of the week

## Star of the week

For growing in confidence this week  
and developing her recognition of numbers.

This week in Reception we have been reading stories that have letters in such as, 'Dear Greenpeace' and the 'Jolly Postman'. The children have been writing their own letters, which they will be posting next week. In Maths we have been counting in 10s and learning about the formation of numbers. Our indoor classroom provision now has a mud pie kitchen in the malleable area where the children can make pies out of blueberry play dough and herbs. We also have been making dragons in the creative area as we have been looking at Chinese New Year.

**Please look on our new website and log on with your name and username to access the weekly homework.**

Thank you for all the PE kits we have had in this week and for your support.

Miss Marney, Mrs Dawson and Miss Yasmin.

Next week we will be looking at stories in Literacy that are about growing seeds. The children will have the opportunity to plant their own seed and will be in charge of looking after it to make sure it grows. We will then be measuring our plants in Maths and recording how much they grow. Next Thursday is also World Book day and the children have to dress up as a book character. I'm sure they have lots of ideas of who they want to be!
