

Maths

This week in maths we have been learning all about positional language, describing where things are. We have learnt key vocabulary, such as 'on top of' 'under' 'next to' 'behind' 'in between' and 'in front of'. The children were set a task to hide a toy or an item in different places around their house, they then had to describe it's position to a grown up, take a look at the photos!

Me and my doll are next to the plant.

Me and my doll are in front of my doll house.

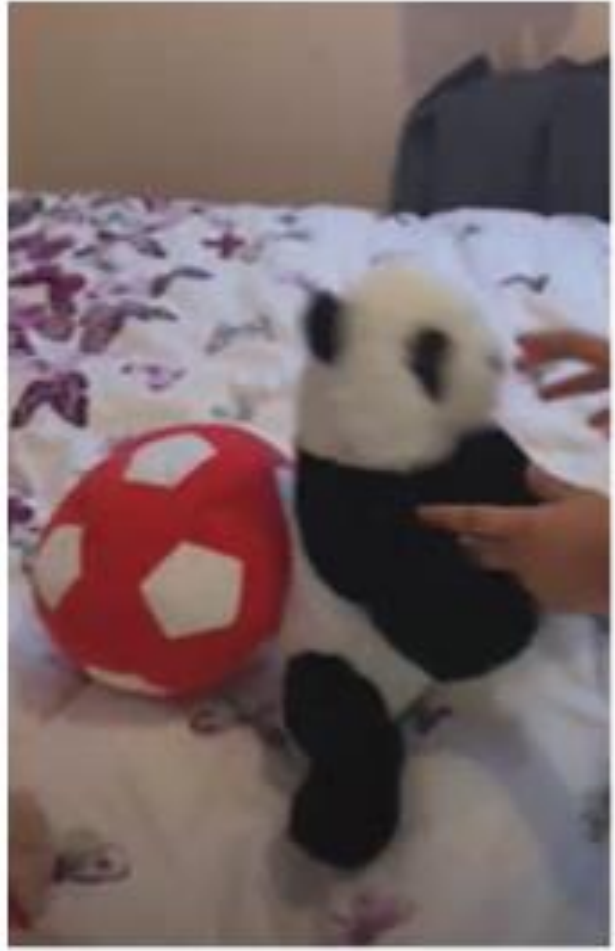

Me and my doll are behind the door.

Me and my doll are standing in between the chairs.

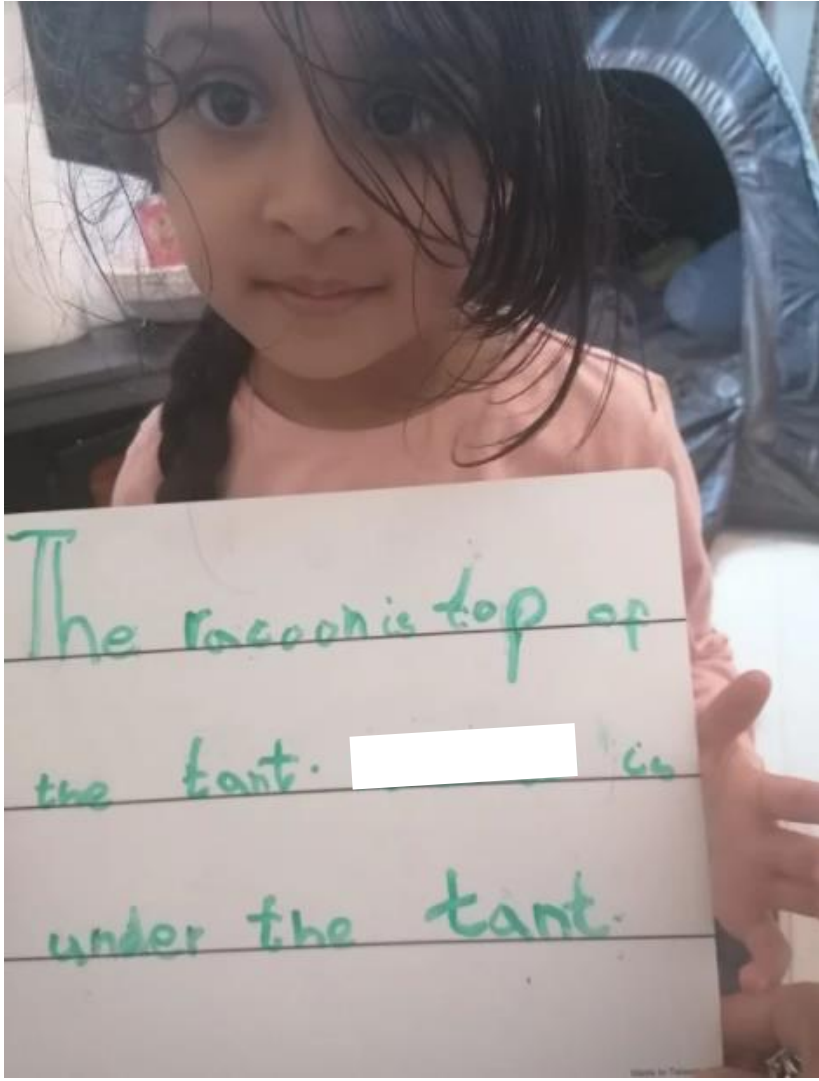

The cupcake is
between kitty and
bunny.
